Runnymede
St. Edward's School

Summer Term Curriculum Year Five Summer 2010

**Runnymede
St Edward's School**

Annual Reports—12th July
Optional SATS Week May 10th—14th

Summer Term 2010

English

The children will be involved in the following literacy activities.

- Investigate texts from other cultures and writing stories from other peoples points of view.
- Writing for different audiences.
- Writing letters and how to be persuasive in our writing.
- Continue to improve our spelling strategies.
- During our grammar activities we will be learning about prepositions, apostrophes, clauses , connectives and basic conventions of standard English.
- To read regularly from the reading scheme.

Mathematics

The children will study the following areas of the numeracy strategy.

Number

- Explore place value, ordering and rounding.
- Looking at the four rules of number multiplication, division, addition and subtraction and linking them to real—life problems.
- Fractions, decimals and percentages
- Looking at shapes with their reflections, symmetry and translation.
- Percentages, ratio and proportion.

Pupils will also complete practice papers in preparation for entrance examinations, for selective secondary schools
